

Questions for my Arbor Hospice Team

We encourage you to call Arbor Hospice any time you have questions or concerns. Some patients and families prefer to write down their questions. This helps them remember the question when they call or when their Arbor Hospice nurse, counselor, chaplain, home health aide, physician or volunteer visits.

Space is provided for you to write down your questions. There is also space for you or your Arbor Hospice team to write down answers to those questions so that you can refer to them later.
